b. Immediate consideration should be given to the format revision and method of publishing the Catalog of Courses: Rather than the periodic printing of revised pages (for correction and insert), a recommendation was made some months ago by ISB that the Catalog be prepared for distribution to all users bi-annually as a complete bound volume. This method would result in a considerable saving of man-hours by clerical staff and office personnel now being wasted in making all the necessary revision; it would automatically insure the immediate use, by the operating divisions and all Agency components, of a completely corrected and up-to-date Catalog. Periodic announcements, revisions, and schedule changes in courses and course content would be reported in the OTR Bulletin.

c. Basic Tradecraft Manual (TR IM 2-6), the release date of the Manual has been delayed at PSD/LO/Bindery Section because of priority given to the collation of the revised Catalog of Courses. The date of completion of the Supplement to the Manual (TR IM 2-6a) is scheduled for early in July.

d. The printing of a new edition of the booklet An American Thesis, total 2,000 copies, is expected to be completed early in July.
